your sheet (lens0, upper)
CUT · what you see through the clip · lip
sheet turned +92.7 deg from the photo, not flipped
flat cut size 57.9 x 41.9 mm

wearer's LEFT eye

TOP ^

NOSE side TEMPLE side

your sheet (lens1, lower, long nasal tab)
CUT · what you see through the clip · lip
sheet turned +87.4 deg from the photo, not flipped
flat cut size 58.0 x 41.7 mm

50 mm - print at 100 % (no fit-to-page) and check

v15_1_smooth clip. Viewed from the FRONT of the glasses. Lay each sheet with the face that was UP in the photo facing you: that face is the outer (world) side, the other faces your eye.
Cut on the solid black line: it stays >= 0.08 mm inside your sheet. Film assumed ~0.2 mm thick.
Mark TOP on each film with a dot before cutting.

Print at 100 % / "Actual size" (no fit-to-page). The 50 mm bar must measure 50 mm.
